

# BREAK-AWAY COUPLER

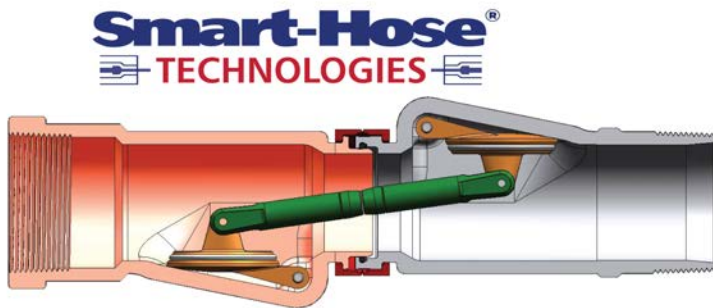

SMART-HOSE TECHNOLOGY

SMART BREAK-AWAY COUPLER

The Smart Break-Away Coupler is designed for any hazardous transfer application that has a potential for a pull-away incident. Designed with an engineered break-point, the Smart Break-away Coupler by Smart-Hose® Technologies can protect plant piping, bulkhead piping, tank truck piping and loading arms from the devastating consequences associated with pull-away incidents.

Available in 2" and 3", the Smart Break-Away Coupler offers full-flow break-away protection that requires no annual maintenance and is offered at a price point that is significantly less than conventional break-away technology.

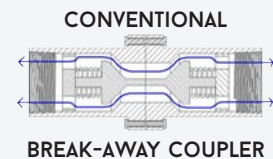

Note: CRN numbers are available for certain provinces at this time, please inquire for more details.

Part Number	Description
SMA C2 FXF	2" Smart Break-Away Coupler
SMA C3 FXF	3" Smart Break-Away Coupler

- ✔ Full flow break-away
- ✔ No annual maintenance
- ✔ Significant cost savings
- ✔ Custom design break-points
- ✔ Re-buildable

- ✘ Creates flow restriction
- ✘ Requires annual maintenance
- ✘ Cost prohibitive
- ✔ Custom design break-points
- ✔ Re-buildable
